

Massive Update of All AKVIS Image Editing Programs

June 23, 2022 – AKVIS announces the update of all image editing programs. The recent versions provide support for Apple M1 processors, as well as functionality, compatibility, and stability improvements. The updated software for Windows and macOS are available for download at akvis.com.

AKVIS offers an [impressive range](#) of the image processing software products. The field of application of the programs is wide-ranging. AKVIS makes users life easier by providing them a rich assortment of tools, each designed for a specific purpose: photo retouching and image enhancement tools, special designers effects, artistic filters for creating digital paintings and drawings, cutting-edge AI-based programs, and other software.

Major updates are available for [AirBrush 8.0](#), [ArtWork 13.0](#), [Chameleon 12.0](#), [Neon 6.0](#), [Points 6.0](#), [Retoucher 12.0](#), [Sketch 25.0](#). The new versions of these products introduce the redesigned user interface as well as functionality, compatibility, and stability improvements. Sketch 25 is inspired by users' requests and includes the new Presets Gallery with long-awaited live preview.

The other software offer minor updates with some improvements and bug fixes. The free programs ([Artifact Remover AI 2.1](#), [Frames 7.1](#)) have also been updated. The detailed lists of changes are available on the What's New page for each software and in the Notifications Panel in the program workspace.

The recent versions are available for download at akvis.com for [Windows](#) and [macOS](#). Users can evaluate all features during the 10-day trial period without activation.

The AKVIS programs run on Windows 7, 8, 8.1, 10, 11 and macOS 10.12-12.0. The programs are also compatible with Linux via Wine. The software products can be used as standalone applications and as plugins with compatible graphics editors: [AliveColors](#) by AKVIS, Adobe Photoshop, Corel PaintShop Pro, GIMP, Affinity Photo, and other image processing programs.

Some AKVIS programs are available for free. The other software can be purchased individually or in the bundles. The products come in Home, Home Deluxe, and Business versions, with differing levels of functionality.

The update is free for users who bought the software in the last 12 months. Users, whose licenses are older and are not valid for the new version, can get the latest version of any program for only \$14.95 or update all of the products at once for only \$39.95.
